PERSONALIZED DESIGN

*Hardworking on the inside,
beautiful on the outside.*

From solid panel and decorative infills to trim and solid surface options, a range of design elements and adaptable configurations let you create an exceptional operatory that expresses your individual style.

Smart Ergonomics

Adjustable. Movable. Reachable. It's amazing the impact well-designed dental furniture can have on your overall physical comfort.

Integrated Features

Technology-ready design seamlessly assimilates what you have today with what's coming tomorrow. Until then, integrated features like cable concealment and adaptable built-ins keep things moving along neatly and efficiently.

Streamlined Workflow

Everything about A-dec Inspire dental furniture is designed to help your team increase workflow efficiency. A-dec® designers and engineers work with dental professionals to ensure that A-dec Inspire reflects everything you need in a dental environment.

A-dec Inspire 500
Dental furniture collection

INTEGRATED FEATURES

Feel more productive with every touch.

Thoughtful design features—from integrated technology-ready design and concealed cables to hands-free faucets and adaptable built-ins—keep things moving along neatly and efficiently. You have everything you need at your fingertips and can tuck it all away when you don't. Consequently, your workday just became a bit less complicated.

Integrate your light, monitor, x-ray and other essentials into the cabinets.

With cables neatly concealed inside the arm, the telescoping monitor mount glides vertically and horizontally for task-based positioning.

Power panel discreetly houses USB, electrical outlets, cord drops, and optional vacuum line cleaning system (ICV).

Accurate LED task lighting matches color temperature of the A-dec LED dental light to ease eyestrain.

WORRY-FREE RELIABILITY

Don't give it another thought.

Made to last begins with our design philosophy: create innovative, feature-rich products without complication. A-dec builds long-lasting reliability into every detail. Made from proven, tested materials, it is protected by a ten-year warranty. Because reliability is the last thing you should worry about.

High-pressure laminate and color-matched edgebanding withstand decades of wear and tear.

Powder-coated handles won't wear or tarnish over the life of the product.

Optional CPU vents keep air moving throughout cabinets.

Modular grid system allows reconfiguration from drawers to doors (and vice versa) down the road.

WORK PURPOSEFULLY

Getting it just right is effortless.

Between 40 and 60% of dental professionals suffer from work-related musculoskeletal issues.* With a monitor that glides easily between doctor and assistant, shelves that move to you, and ancillaries and storables accessible from either side, everything you need to work efficiently and comfortably is all within reach.

Use it for supplies or patient charting; either way, floating shelves let you position tubs and ancillary devices where you need them.

Movable swing-out shelves let assistants bring materials and devices to them, not the other way around.

Storage drawer keeps spare items close at hand for unexpected use.

*Kimber Solana. 2021, December 18. "Wellness Countdown to 2022: 10. Ergonomic Support for Dentists, Dental Team," adanews.ada.org

The Sterilization Cycle

Set up your sterilization center for optimized workflow.

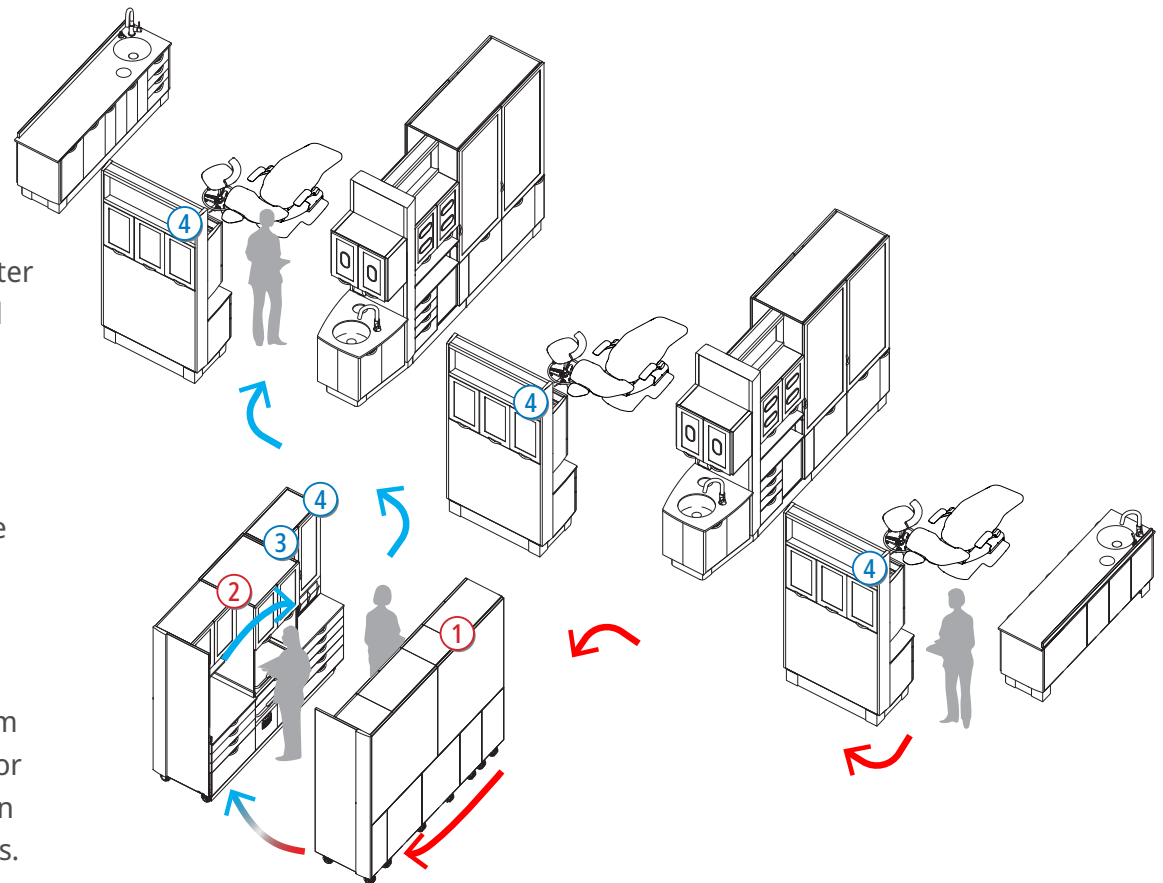

- 1 Receiving and Cleaning
- 2 Preparation and Packaging
- 3 Sterilization
- 4 Storage

STREAMLINED WORKFLOW

*When materials move
efficiently, so do you.*

Every square foot of the A-dec Inspire sterilization center is organized into functional workspaces, with specified areas for receiving and cleaning, preparation and packaging, and sterilization and storage. The furniture is designed to follow recommended CDC protocol, creating a safe, consistent process and streamlining the flow of materials. You can boost productivity to the point of actually increasing available chair time, while ensuring the safety of your patients and dental team.

Load materials and instruments directly from the sterilization center or sterilized storage, deliver them to the treatment room, and return used materials for processing. Everything is in position and ready when you are, optimizing labor—one of your highest costs.

VERSATILE OPTIONS

Inspire. Your way.

Did you know you can mix-and-match A-dec Inspire 500 with A-dec Inspire® 300? With a shared color palette, clean, modern A-dec Inspire 300 is everything you need, in a budget-friendly, pre-configured system. So, you can place the premium extras where you need them and simplify where you don't.

A-dec Inspire 300

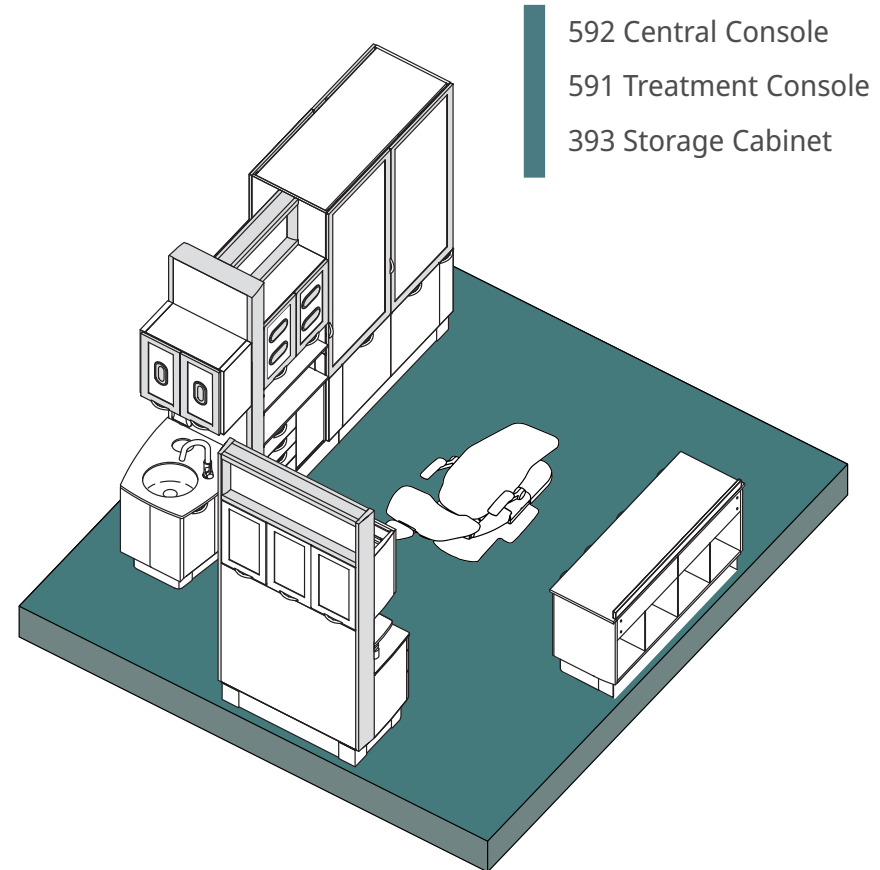

A-dec Inspire 500

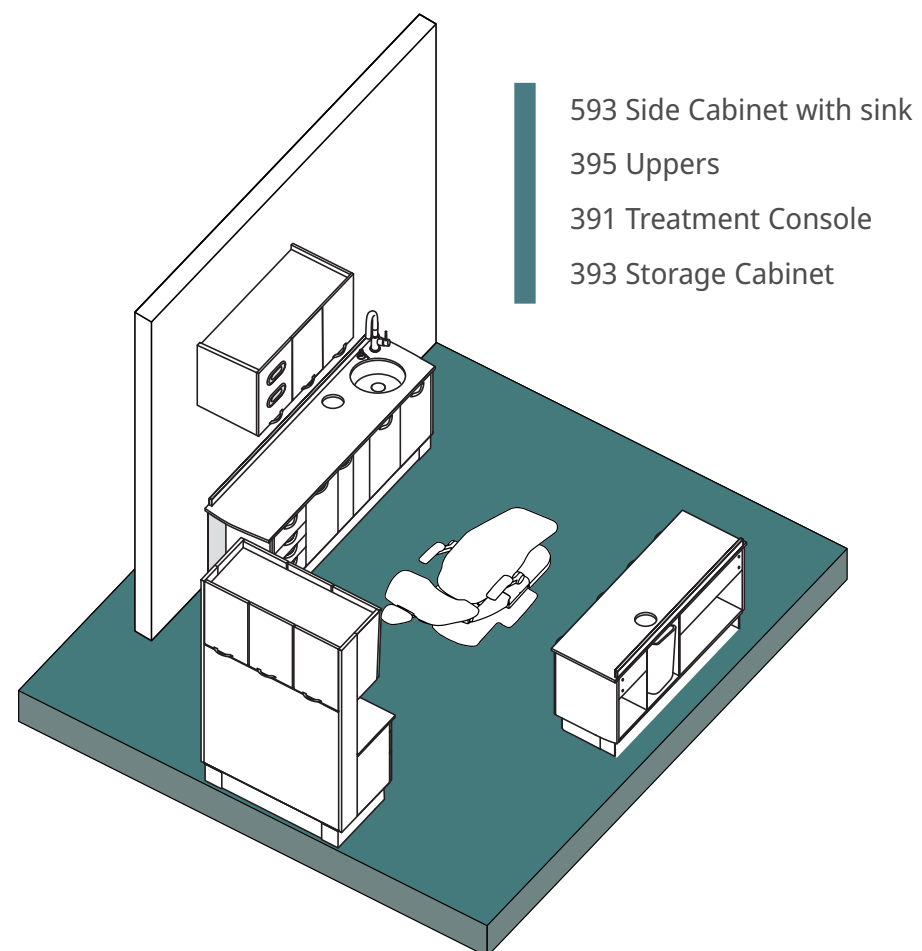

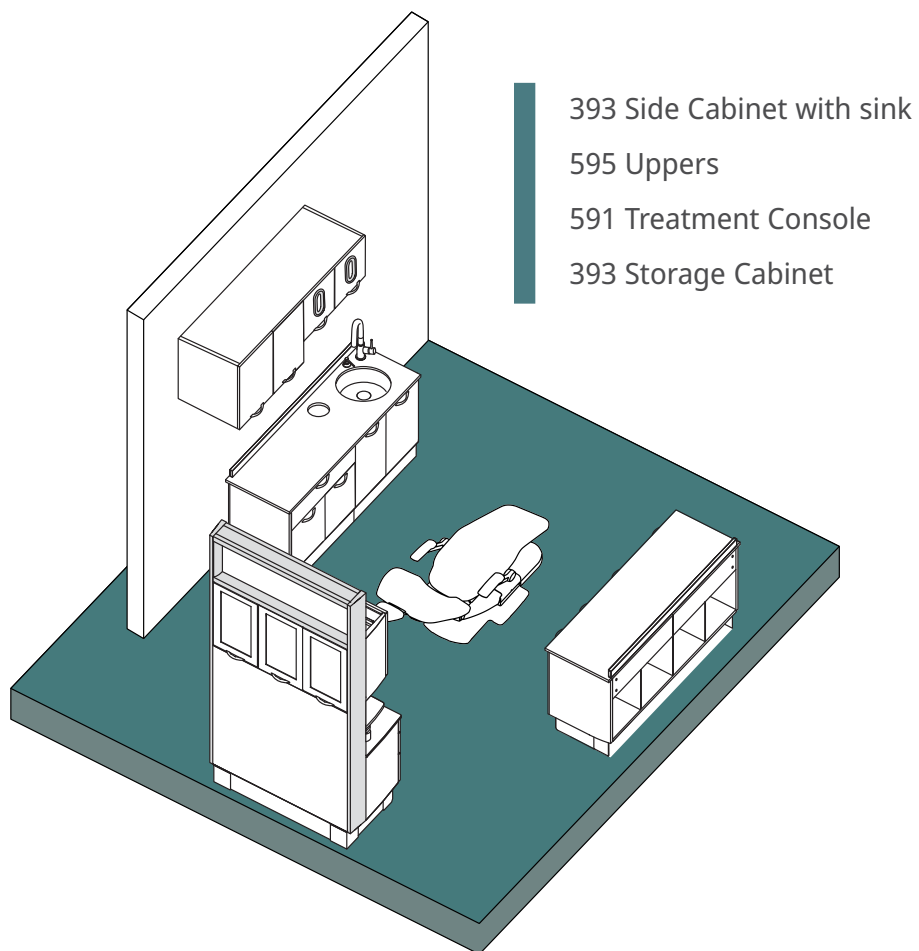

FLEXIBILITY BY DESIGN

Fit your space.

Suit your budget.

A-dec Inspire 500 is customizable and reconfigurable. A-dec Inspire 300 is pre-configured. And the two collections seamlessly integrate giving you the freedom to choose what best suits your space and technical requirements.

WHY CHOOSE A-DEC INSPIRE

Durable materials, made for dental.

Proven quality materials are rigorously tested to emulate—and withstand—the day-to-day rigors of the dental environment and are backed by a ten-year warranty. That's hassle-free dependability you can trust.

High-pressure laminate and thick 2-millimeter, color-matched edgebanding on all panels absorbs impact that can happen in the dental environment.

Solid powder-coated steel subbase (rather than stainless cladding) keeps liquids from damaging furniture.

Robust solid surface and quartz countertops withstand abuse in the dental environment.

We bolt our products together with metal fasteners, wood screws, bolts, and cams. Using furniture-assembling hardware means that if any parts need to be replaced, we can unbolt parts and replace them without having to replace the entire cabinet.

THE TEST OF TIME

Durably and rigorously made.
Because what's inside matters.

Everyday cabinets are not designed to withstand the rigors of the dental environment. Sustainably made from top-of-the-line materials, A-dec Inspire is crafted from parts and materials chosen specifically for the dental environment.

More than a warranty.
It's a commitment.

At A-dec, our focus is on making dentistry better—which includes superior customer service along with superior dental products. Your A-dec dental furniture is backed by a ten-year warranty, and a lifetime of customer support. We'll be here today, tomorrow, and well into the future. That's our commitment to you.

A-dec Inspire materials endure environmental agents from humidity and moisture to cleaning and chemicals.

Custom cabinets are not made for the harsh operatory environment. Over time they may warp, chip, and gap due to weakened door hinges.

INSPIRE BY THE NUMBERS

Our standard is anything but typical.

A-dec products are built from innovation, imagination and investigation. But when it comes to testing, our scrupulous methods are scientifically designed to test for decades of reliability.

Here are a few favorite numbers.

We source decorative laminates and countertop materials from GREENGUARD certified suppliers.

**THE A-DEC INSPIRE
COLLECTION ISN'T JUST
BUILT FOR THE FUTURE,**

*it's built with a
mindful eye toward the
sustainability of our planet.*

TREATMENT CONSOLE

Inspire peak performance.

Think of this as your productivity hub. A beautifully integrated wall conveniently conceals utilities, while the console keeps equipment and supplies organized and within reach. Add to that adjustable floating shelves, and the treatment room console helps you work smarter and more comfortably.

Pass-through upper storage allows assistants to restock instruments and supplies, without interrupting treatment room procedures.

Single- or dual-floating shelves offer optimal ergonomic positioning for procedural tubs and ancillary devices.

Side swing-out shelves add additional functional space for supplies and equipment.

Seamlessly integrates with A-dec 541 Pro and A-dec 341 Pro delivery system or A-dec 545 Standard assistant's instrumentation.

Treatment console—98"

Treatment console—42"

*Treatment console,
lower—42"*

CENTRAL CONSOLE

More operatories. Same space.

Effectively manage valuable office real estate by fitting more treatment rooms in the same space. Sharing equipment and utilities across multiple rooms means offices gain even more production per square foot—and standardizing treatment room layouts means uniformity for staff.

Central console—114"

Central console—80"

T-wall central console—32"

Seamlessly integrates with dental lights or monitor mount, vacuum-line cleaner and delivery system.

Optional pass-through x-ray mount and computer storage reduces equipment costs by sharing across multiple treatment rooms.

Optional ICV system simplifies vacuum-line cleaning.

Full-length central can accommodate 342 Pro delivery system.

SIDE CONSOLE

More functionality is a must.

You need to add more functionality to your operatory. The full side console answers that call with sharps disposal and storage options, plus hands-free faucets and foot pedals that reduce touch points and promote asepsis.

Extra-wide drawers provide easy access to materials.

Optional ICV system simplifies vacuum-line cleaning.

Modular power panel brings air, water, and gas into visible position.

Foot-activated faucets and motion-activated dispensers reduce touch points

Side console—70"

Side console—56"

UPPER & LOWER SIDE CONSOLE

*Add extra storage
where you need it.*

A-dec Inspire wall-mounted cabinets add extra storage and keep countertops and workspaces neat and tidy. The lower console keeps equipment and material organized and within reach. Paired together? Organization is inevitable.

X-ray storage insert—48"

Dispenser and storage combination—56"

Side console—56"

Upper: X-ray pass-through storage allows equipment sharing across treatment rooms.

Upper: Adjustable glass shelves organize and store treatment supplies.

Lower: Extra-wide drawers and colored bins support materials management.

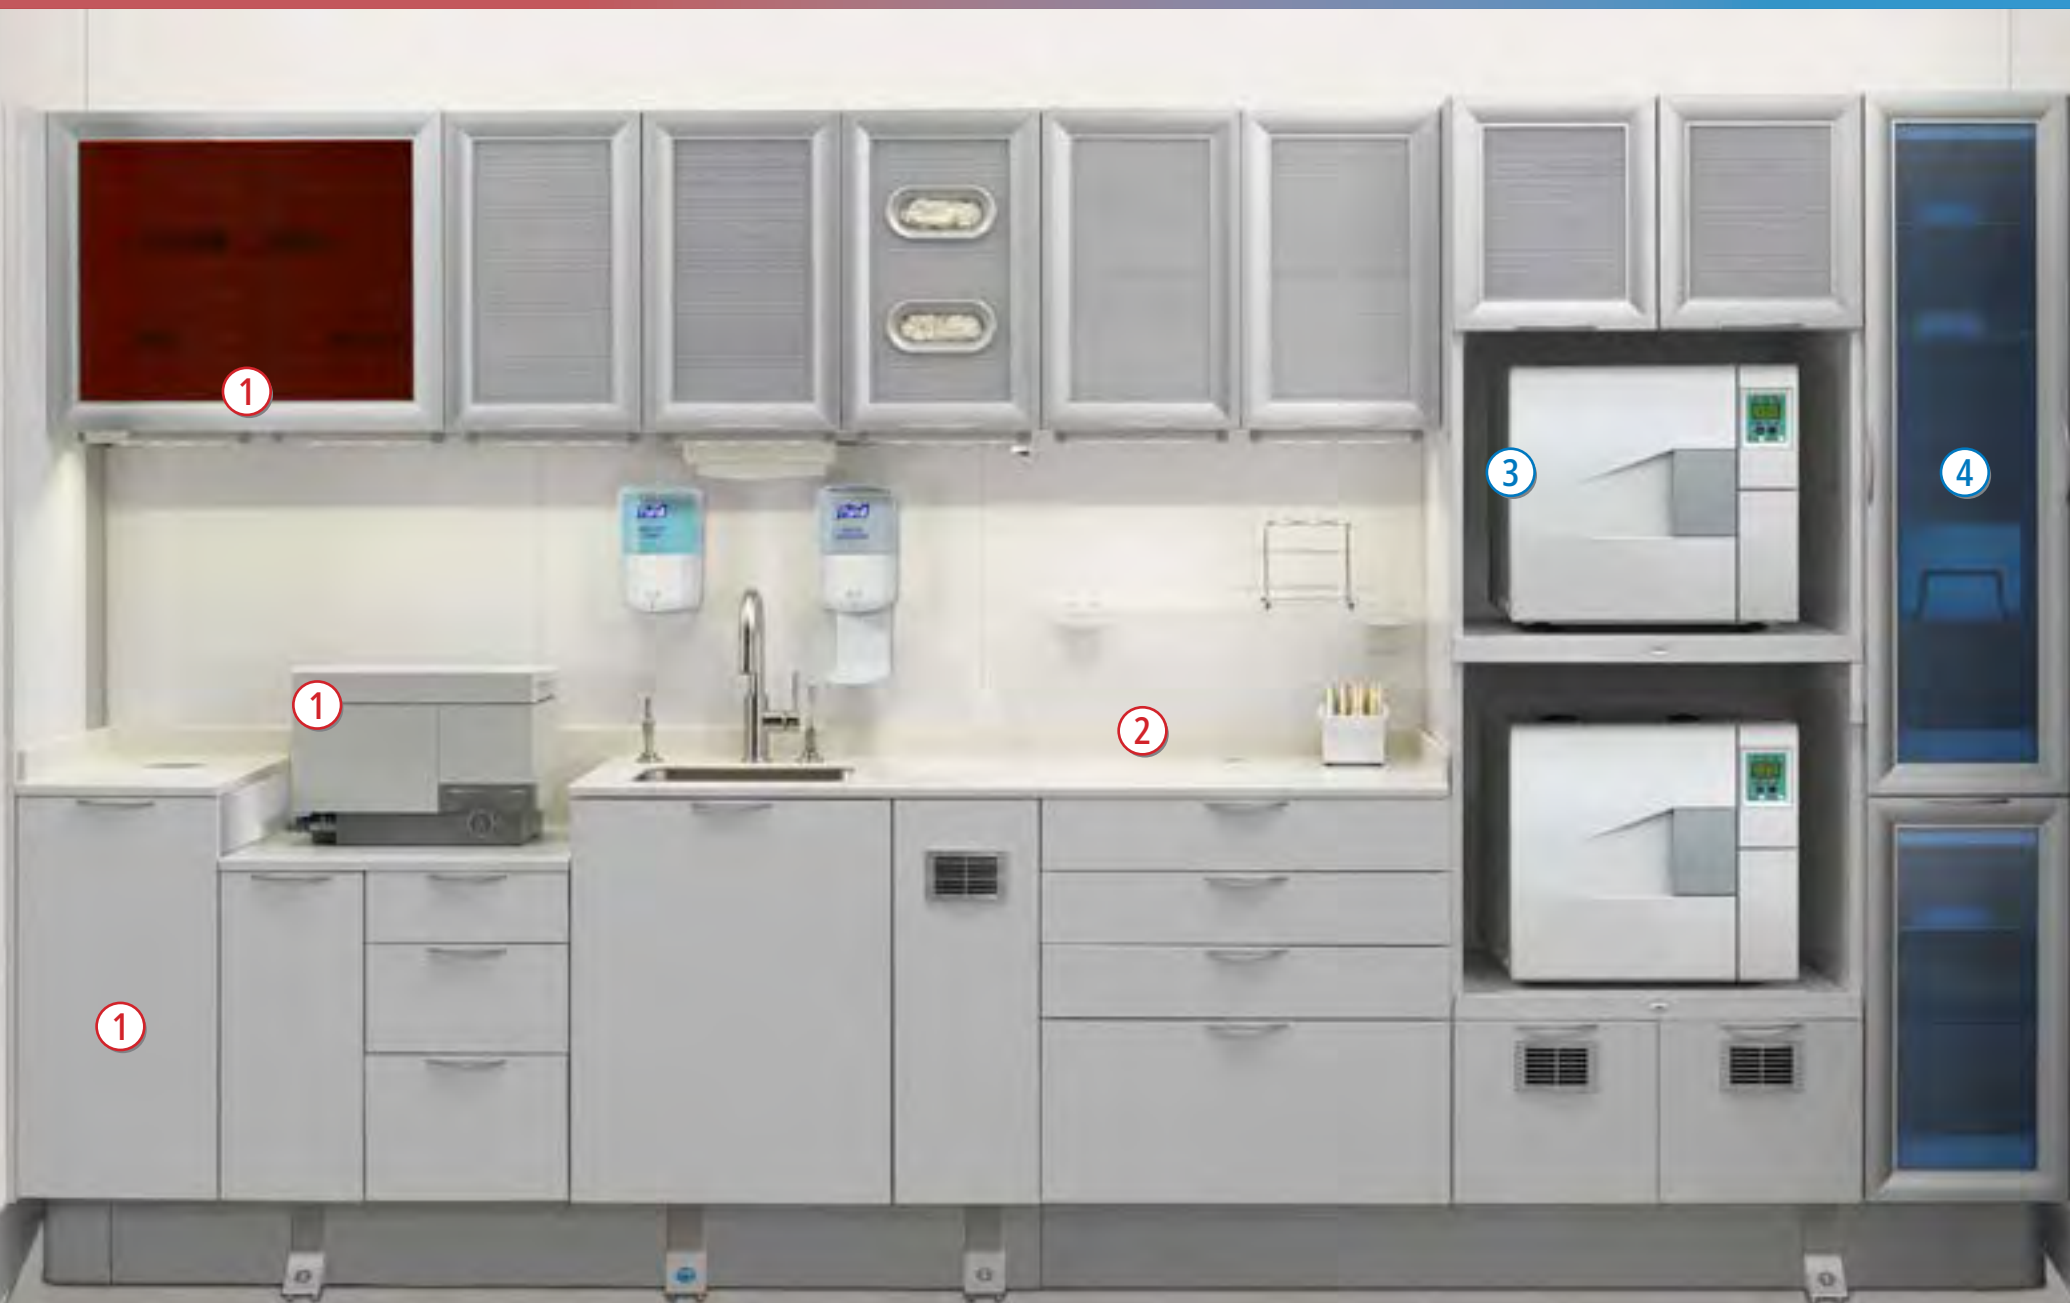

Lower: Various cabinet depths allow versatility where space is limited.

STERILIZATION CENTER

Following processes couldn't be easier when the flow is built in.

Red indicates contaminated. Blue indicates clean. Everything about the A-dec Inspire 500 sterilization center is designed to intuitively and visually follow established CDC guidelines for instrument processing protocols, and ultimately, streamline the flow of materials. With the ability to configure the furniture, you can design the workflow to fit your space—and your needs.

Storage tower keeps consumables or sterile instruments ready and waiting for the dental operator.

Customizable color-coded bins store items for prep trays and tubs.

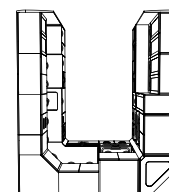

Easy-touch foot pedal opens cabinets and activates faucets, reducing touch points.

Instrument dryer removes moisture from instruments prior to sterilization.

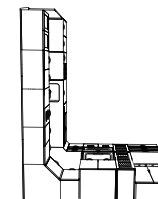

CONFIGURE A STERILIZATION CENTER THAT FITS YOUR SPACE

U-shaped style

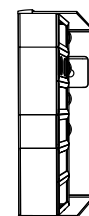

The U-shaped configuration creates a private space that is out of patient view.

L-shaped style

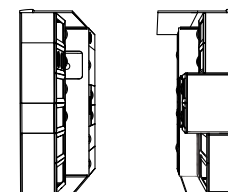

The L-shape is well suited for offices with a smaller footprint, or for replacing existing cabinetry.

Straight style

If space is limited, a straight sterilization configuration may be the answer.

Galley style

This configuration allows treatment room access from both sides, and lets patients see that you are serious about sterilization.

DESIGNATE A PLACE FOR EVERYTHING

Keep it all within arm's reach.

A-dec Inspire is anything but an ordinary cabinet. From configurable colored-coded bins and infection control supply drawers to shared x-ray apron access, there's a place for everything.

Floating shelf

Cassette sterilizer

Color-coded bins

DENTAL CART

This cart has wheels!

Fast is an understatement. With smooth, quiet wheels, this cart efficiently moves infrequently used instruments between operatories. Choose a cabinet finish and cart top (quartz, solid surface or powder-coated metal) to match your A-dec Inspire furniture, and it blends right in.

Tray, procedure, or storage-style, each cart is designed specifically for its intended purpose.

Adds functionality and makes the most of compact spaces.

Drawers and shelves keep items neatly at hand.
